

## Tutorial for adding new item into Place Order list

- **Step 1:**

```
<div class="part2">
  <fieldset>
    <legend>Your Orders</legend>
    Tea (Rs. 5): <input type="text" id="tea"> <br/>
    Coffee (Rs. 7): <input type="text" id="coffee"><br/>
    Dry Snacks (Rs. 5): <input type="text" id="ds"><br/>
    Wet Snacks (Rs. 7): <input type="text" id="ws"><br/>
    Half Lunch/Dinner (Rs. 13): <input type="text" id="h-ld"><br/>
    Full Lunch/Dinner (Rs. 23): <input type="text" id="f-ld"><br/>
  </fieldset>
</div>
```

New item (Rs. ) : <input type="text" id="ni"> <br/>

- **Step 2:**

```
var Tea = 5, Coffee = 7, Dry_Snacks = 5, Wet_Snacks = 7, Half_LD = 18, Full_LD = 23;
var tea_q=0, coffee_q=0, dry_snacks_q=0, wet_snacks_q=0, half_ld_q=0, full_ld_q=0;

var teaBill="",coffeeBill="", dry_snacksBill="",wet_snacksBill="",half_ldBill="",full_ldBill="";
```

var New\_ItemPrice = price;

var new\_item\_q = 0;

var new\_itemBill="";

- **Step 3:**

```
document.getElementById("tea").addEventListener("keyup",function(){
  if(this.value=="||this.value==0){
    teaBill="";
    tea_q=0;
    showBill();
  }else{
    tea_q=this.value;
    teaBill="<tr><td>Tea</td><td>Rs. "+Tea+"</td><td>"+tea_q+"</td><td>"+Tea+"x"+tea_q+" = "+Tea*tea_q+"</td></tr>";
    showBill();
  }
});
```

```
document.getElementById("ni").addEventListener("keyup",function(){
  if(this.value=="||this.value==0){
    new_itemBill = "";
    new_item_q = 0;
    showBill();
  }else{
    new_item_q = this.value;
    new_itemBill = "<tr> <td> New item </td> </tr>
      <tr> <td>Rs. "+New_ItemPrice + "</td> </tr>
      <tr> <td> "+new_item_q + "</td> </tr>
      <tr> <td> "+New_ItemPrice + " "x" "new_item_q" =
      "+New_ItemPrice *new_item_q + "</td> </tr> "
    showBill();
  }
});
```

- **Step 4:**

```
function showBill(){
    document.getElementById("bill").innerHTML=teaBill+coffeeBill+dry_snacksBill+wet_snacksBill; //table statement
    document.getElementById("amount").innerHTML = Tea*tea_q+Coffee*coffee_q+Dry_Snacks*dry_snacks_q+Wet_Snacks*wet_snacks_q; // total amount
}
```

document.getElementById("bill").innerHTML=teaBill+coffeeBill+dry\_snacksBill+wet\_snacksBill+half\_ldBill+full\_ldBill+ new\_itemBill; //table statement

document.getElementById("amount").innerHTML =  
Tea\*tea\_q+Coffee\*coffee\_q+Dry\_Snacks\*dry\_snacks\_q+Wet\_Snacks\*wet\_snacks\_q+Half\_LD\*half\_ld\_q+Full\_LD\*full\_ld\_q+ New\_ItemPrice \*new\_item\_q; //  
total amount
